DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference sign(s) not mentioned in the description: 27. A proposed drawing correction, corrected drawings, or amendment to the specification to add the reference sign(s) in the description, are required in reply to the Office action to avoid abandonment of the application.
3. On amendment, applicant indicates that they have filed proposed drawing corrections, but these corrections cannot be found in the file. The examiner recommends the applicant again provide the proposed drawing corrections.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

5. Claims 1-8,15-18 are rejected under 35 U.S.C. 102(a) as being clearly anticipated by Terashima (Fujifilm Research & Development 2001).

Art Unit: 1753

6. Applicant cannot rely upon the foreign priority papers to overcome this rejection because a translation of said papers has not been made of record in accordance with 37 CFR 1.55. See MPEP § 201.15.

7. As the examiner pointed out in the previous office action (paragraph 27), this reference appears to disclose the invention in its entirety and read on all the claims, but the examiner questioned the applicant as to whether this reference qualified as prior art (i.e. was it published before 3-30-2001). In the event that it was published before 3-30-2001, then the applicant was invited to provide a certified translation of the foreign priority document. Applicant's did not respond to this issue raised in the office action and repeated phone calls to the applicant's representative to help clarify this issue were not returned. Hence, the examiner is now obligated to reject the claims as being clearly anticipated by this reference. Applicant may overcome this rejection by either a) establishing that Terashima was published after 3-30-2001 and thereby does not qualify as prior art under 35 U.S.C. 102(a), or b) provide a certified translation of the foreign priority document.
